

CONTENTS

Aviation, Rocket and Space Engineering

- Berns V.A., Zhukov E.P., Marinin D.A.** Identification of the Structures Dissipative Properties According to the Experimental Modal Analysis Results 4
- Aliev A.V., Mishchenkova O.V., Cherepov I.V.** Nonstationary Intra-Chamber Processes in Solid-Propellant Controlled Propulsion System 24
- Fedorov S.V., Fedorova N.A.** Influence of the Soil and Rocky Target Strength Properties on Projectiles Penetration Depth with Additional Action of the Jet Thrust Impulse 40

Mechanical Engineering and Machine Science

- Leskov A.G., Illarionov V.V., Kalevatykh I.A., Moroshkin S.D., Bazhinova K.V., Seliverstova E.V.** Planning, Simulation and Experimental Research into Typical Robotic Manipulator Operation 57
- Yaroslavtsev V.M., Yaroslavtseva N.A.** Method of Large Plastic Strain Research 71
- Kosarina E.I., Stepanov A.V., Demidov A.A., Mikhailova N.A., Krupnina O.A.** Formation of Radiation Defect Images with Radiation Nondestructive Testing 81
- Kovalev V.V., Mikheev R.S., Kobernik N.V.** Features of Steel-Aluminium Bimetallic Bonding Produced by Fusion Welding 93

Power, Metallurgical and Chemical Engineering

- Kavtaradze R.Z., Zinovev I.A.** Partial Homogenization Effect of the Combustion Process on the Environmental Performance of Diesel 113

Mechanics

- Bykov N.V., Zelentsov V.V.** Genetic Algorithm-Based Methods for Project Synthesis of Ballistic Installations with Hydrodynamic Effect 128
