

CONTENTS

Aviation, Rocket and Space Engineering

Belonogov O.B. Discharge and Non-Dimensional Parameters of Fluid Flows in Throttles of Spool Hydraulic Valves of Electro Hydraulic Amplifiers 4

Zolotov A.A., Nurullaev E.D. Forecasting the Number of Spacecraft Software Failures 24

Pyi Phyo Maung, Malysheva G.V. Modeling of the Kinetics of Impregnation Process in the Production of Reinforced Carbon-Fiber Reflectors for Space Antennas 38

Morozov A.S., Krotov A.S., Kas'kov S.I. Feasibility Assessment of Thermally Stabilizing the Photodetector for Earth Remote Sensing with Thermoelectrical Cooler 48

Koryanov V.V., Nguen K.T., Nguen V.T. Multiple Regression for UAV Aerodynamic Model based on Experimental Data 59

Mechanical Engineering and Machine Science

Timofeev G.A., Tarabarin V.B. Calculations of Jamming when Wheel Teeth Tops Stop in the Wave Gear 68

Mechanics

Tsvetkov S.V., Kulish G.G., Smerdov A.A., Baryshev A.N., Tashchilov S.V., Magnitskiy I.V., Ponomarev K.A. Experimental Research of Materials in Triaxial Tension 76

Power, Metallurgical and Chemical Engineering

Demikhov K.E., Ochkov A.A. Effective Range of Gas Pressure at the Suction Side of the Turbomolecular Vacuum Pump 89

Markov V.A., Shatrov V.I. Automatic Control Systems for Heat and Power Installations and Ways to Improve Them 96

Metallurgy and Material Science

Bazaleeva K.O., Tsvetkova E.V., Balakirev E.V. Processes of Recrystallization in Austenitic Alloy Obtained by Methods of Selective Laser Melting 117

Zakharov B.M., Bureev I.A. Improved Technology for Heat-Shielding Coating Application onto Turbine Blades 128
